

## Your future is looking bright.

# Surveying & Built Environment

## Overview

Study with Australia's number one distance education provider of engineering and surveying degrees and experience the benefits of a Remote Access Laboratory (RAL) System that provides students with off-site access to practical and laboratory experiments.

USQ Surveying students learn with the latest technology, including modern satellite based Global Positioning Systems and computer mapping technologies.

Whether you want to become a leader in construction, design geographic information systems like Google Maps, or even utilise new technologies such as satellite imagery for 3D mapping in urban and regional planning, USQ has a degree to get you there.

## Disciplines within Surveying and Built Environment

### Undergraduate study options

Construction Management

Geographic Information Systems

Surveying

Urban and Regional Planning

### Postgraduate study options

Geographic Information Systems

Surveying
